

## Barsan Foundation 2018 Projects

The Barsan Foundation is committed to distributing funds to worthy projects consistent with our mission. In 2018, the Board of Directors reviewed 10 proposals and approved funding for 8 different projects in Romania. The total funds provided were \$11,800.

### 2018 Projects Included:

- Gifts of food boxes, clothing and children's toys were provided to 50 impoverished families in several rural communities of central Romania. Items were delivered during the 2 weeks prior to Christmas.
- Winters in central Romania are very cold; this is especially harsh for impoverished families living in substandard housing. In December, wood for heating homes was provided for 11 families and also 2 individuals living alone.
- In anticipation of the winter weather, two wood stoves were purchased and delivered – one for a family with many children and the second for a community gathering place.
- Funds were provided to cover medical supplies and care for a child with severe medical problems whose parents have no income.
